

Next Steps

Consider Express Toll Lanes where they make sense (i.e., for controlled-access highways such as Interstates that experience chronic congestion).

Specifically:

- Project planning studies will begin looking at Express Toll Lanes as an alternative for the public to consider. Studies include:
 - ✓ I-95
 - ✓ Capital Beltway
 - ✓ I-270
 - ✓ Baltimore Beltway
- Continue to monitor lessons learned from other cities and states and apply “best practices” to Maryland’s roadways.
- For more information on Maryland’s Express Toll Lanes efforts, please visit our website at www.marylandtransportation.com and click on the Express Toll Lanes icon, or call 1-800-323-MSHA (6742).
